Experience

Yebox / Frontend Developer (Full Time)

April 2025 - Feb 2026

- Yebox Technologies is a forward-thinking innovation company dedicated to creating transformative solutions for a rapidly evolving world.
- Develop scalable and maintainable front-end solutions using modern frameworks

TinyCare / Backend Developer (Contract)

June 2025 - Jan 2026

- TinyCare is a comprehensive babysitting platform connecting families with verified childcare providers.
- Built a scalable backend for TinyCare using Django REST Framework with PostgreSQL for data persistence, Celery and Redis for asynchronous task processing and real-time features, and Stripe Connect for secure marketplace payments and automated payout handling.

DoxxaIT / Full Stack Developer (Contract - v2)

Oct 2025 - Nov 2025

- Doxxa is an Multi-Tenant Edu-Tech Platform where tenants can have their personalized sessions, shorts, courses and also experience user-friendly live classes.
- This project is built with ReactJS, TypeScript, Redux-Toolkit, Websocket, and NestJS

DoxxaIT / Full Stack Developer (Contract - v1)

Jul 2024 - Mar 2025

- Doxxa is an Edu-Tech Platform where users view sessions, shorts, courses and also experience user-friendly live classes.
- This project is built with Next, TypeScript, Redux-Toolkit, Websocket, and Flask

AfroEuropean UK / Senior FrontEnd Developer

Jun 2024 - Feb 2026

visit <https://www.afroeuropaan.uk/>, <https://www.learn.afroeuropaan.uk/>

- Afro-European Business Services Ltd. is a company aimed at providing platforms to help ensure the smooth transition into UK life for migrant families, especially their children.
- I transformed UI/UX designs into responsive and interactive web applications using NextJS, TypeScript, while ensuring cross-browser compatibility and optimization for a seamless user experience.
- Integrate API endpoints for Authentication, user creation and login,

inventory management, shipment tracking, user profile management, and other user-specific operations, aiming for an average response time of less than 300 milliseconds.

- Implement robust error handling and logging mechanisms to track and troubleshoot issue

Junkyard / Backend Developer (Contract)

Jan 2024 - Nov 2024

- Junkyard is a waste management system, this project was built with ExpressJs, TypeScript and MySQL.
- I built API endpoints for Authentication, user creation and login, waste collection management, Collections pickup and dropoff, payment, waste tracking, user profile management, and other user-specific operations, aiming for an average response time of less than 300 milliseconds
- Implemented a waste collection process similar to ordering a ride.

Irir Services UK / FrontEnd Team Lead

- Architect and develop scalable and maintainable front-end solutions using modern frameworks.
- Lead and mentor a team of front-end developers, fostering a collaborative and productive environment.
- Conduct regular code reviews, provide constructive feedback, and ensure adherence to coding standards and best practices.
- Recruit, onboard, and train new front-end team members.
- Act as a point of contact for cross-functional teams, ensuring seamless integration and communication.
- Define and enforce front-end development processes and workflows.
- Manage team task assignment and track progress using agile methodologies

Payflex / FrontEnd Developer (Startup)

Jun 2023 - Oct 2023 - visit <https://payflex.vercel.app>

- Payflex is a fintech startup focused on buying Airtime, Paying bill and Data Subscription
- I transformed UI/UX designs into responsive and interactive web applications using NextJS, TypeScript, while ensuring cross-browser compatibility and optimization for a seamless user experience.
- Integrate API endpoints for Authentication, user creation and login, airtime and bills payment, aiming for an average response time of less than 300 milliseconds
- Implement robust error handling and logging mechanisms to track and troubleshoot issue

Wusuaa / FrontEnd Developer (Contract)

Sep 2023 - Nov 2023 - visit <https://wusuaa.vercel.app>

- Wusuaa is an Inventory management admin system that control shipment of products
- I transformed UI/UX designs into responsive and interactive web applications using NextJS, TypeScript, while ensuring cross-browser compatibility and

optimization for a seamless user experience.

- Integrate API endpoints for Authentication, user creation and login, inventory management, shipment tracking, user profile management, and other user-specific operations, aiming for an average response time of less than 300 milliseconds
- Implement robust error handling and logging mechanisms to track and troubleshoot issue

Hobia Backoffice / FrontEnd Developer (Contract)

Aug 2022 - Oct 2022 - visit <https://hobia6544erbg58.vercel.app/>

- Hobia is an product management admin system
- I transformed UI/UX designs into responsive and interactive web applications using NuxtJS and optimization for a seamless user experience.

Carsplenty / FrontEnd Developer (Contract)

Mar 2022 - Jun 2022 - visit www.carsplenty.com

- Carsplenty is a car listing app
- I transformed UI/UX designs into responsive and interactive web applications using VueJS, and optimization for a seamless user experience.

Corefans / FrontEnd Developer (Contract)

Dec 2021 - Feb 2022, - visit

<https://corefans-v2-87jqf042n-slickben.vercel.app/admin>

- Corefans is a celebrity tipping platform
- I transformed UI/UX designs into responsive and interactive web applications using NuxtJS, while ensuring cross-browser compatibility and optimization for a seamless user experience.

Minyx360 Technology Solutions / FrontEnd Developer

Oct 2021 - Jun 2023, ALAUSA, IKEJA

Designed UI Interfaces and implemented RESTful APIs that facilitated seamless integrations with backend services enhancing scalability.

Education

Olabisi Onabanjo University / BSc. Computer Science

APRIL 2023, Ogun State

Awards

DevOps / HNGx Internship

SEPTEMBER 2024

Software Engineering / ALX 2024

FrontEnd / HNGx Internship

OCTOBER 2023

Oracle Cloud Infrastructure 2023 Certified Foundations Associate / Oracle 2023

JavaScript Algorithms and Data Structures / freeCodeCamp 2022
